SQL DBA Associate  
Certified (Oct 2022)

Dear Hiring Manager,

I am writing to express my keen interest in the Web Developer position at Desi, as recently published on Desi's job site. With a Bachelor's Degree in Business Information Systems, a Master's in Management Information Systems, and over 5 years of valuable experience in delivering mission-focused IT services, I am eager to contribute my skills and expertise to your esteemed organization.

I have hands-on experience in developing, testing, deploying, and maintaining web front ends using HTML, CSS, JavaScript, and React. In my recent role as an IT Manager, I played a key part in assisting government clients with their IT requests and requirements, leading to a substantial increase in customer satisfaction. I am confident that my extensive experience aligns perfectly with the responsibilities outlined in your job description.

I am particularly drawn to Desi's commitment "To foster a collaborative and rewarding experience for our customers, partners, and employees that drive us to develop innovative solutions that integrate leading technologies to deliver results." I am excited about the prospect of contributing to the organization's goals by incorporating innovation with human collaboration. My technical skills, dedication, and adaptability make me a valuable candidate for this role at Desi.

Thank you for considering my application. I look forward to the opportunity to discuss how my skills and experiences align with the goals of your organization.

Sincerely,

Mishelle Esser
